## Hello Fellow Members:

We are heading into May and we are still asked to keep our social distance; this is definitely a different time in our lives. Hopefully soon we can get back to having our meetings and doing our social dinner runs. I hope everyone is doing well and staying healthy.

Last week we had an awesome run set up by Sally & Rick Northrop (Thank you guys for setting that up). We had 34 cars and raised \$650 for Paul's Pantry. It was really nice to see everyone show up with their polished Vettes and, of course, the new C-8 (awesome looking car). I love seeing new technology and the way these engineers design these new cars.

Let's go back to the 60's-70's when guys would head out to the garage to do a tune-up on their cars. This usually meant replacing the spark plugs, possibly putting on a new distributor cap, and changing the oil. This was a normal routine for the old cars. Nowadays the most we have to do is put a coat of polish on our cars, turn the key, and away we go. Technology has pulled us away from the garage somewhat.

For the last ten years I have been watching my brother-in-law restore a 1965 Chevelle SS from the ground up. He has replaced every nut and bolt with a new one. The body of this car represents a 1965, but everything else has been updated to the present technology. He is a couple months away from putting this car on the road, and it looks amazing. He has spent countless hours working on this car, and now the build is coming to an end. I know there are a few club members who still work on old cars in their garage, which I think is cool.

I hope to see everyone soon.

Your President

Don VandenAvond
